NANOTECHNOLOGY SCENARIO EXPLORATION SYSTEM

- Adapted from the Joint Research Centre's (JRC) future simulation serious game;
- Allows taking different social roles and discovering the diversity of views associated with nanotechnologies;
- Allows exploring future nanotechnology scenarios (technophilic vs technophobic) in different application areas across multiple timelines;
- Excellent instrument for engaging participants into a meaningful conversation;
- Ice-breaker pushing forward stakeholders' cooperation.

The NANO2ALL project has received funding from the European Union's Horizon 2020 Research and Innovation programme, under the Grant Agreement number 685931.
