

NANO2ALL

BE PART OF THE NANOWORLD!

NANOTECHNOLOGY INVOLVES THE STUDY AND APPLICATION OF EXTREMELY SMALL THINGS ACROSS ALL SCIENCE FIELDS, IMPACTING ON EVERYONE'S LIFE.

JOIN OUR TEAM FROM ACADEMIA, INDUSTRY, MEDIA, POLICY MAKERS AND RESEARCH FUNDERS, CIVIL SOCIETY ORGANISATIONS, NON-GOVERNMENTAL ORGANISATIONS AND EVERYONE IN THE GENERAL POPULATION.

**TOGETHER WE CAN BUILD A WORLDWIDE DISCUSSION
AND SHAPE THE FUTURE OF NANOTECHNOLOGIES.**

THE NANO2ALL PROJECT HAS RECEIVED FUNDING FROM THE EUROPEAN UNION'S HORIZON 2020 RESEARCH AND INNOVATION PROGRAMME, UNDER THE GRANT AGREEMENT NUMBER 685931. THIS PUBLICATION REFLECTS ONLY THE AUTHOR'S VIEW AND THE COMMISSION IS NOT RESPONSIBLE FOR ANY USE THAT MAY BE MADE OF THE INFORMATION IT CONTAINS.

WHAT IS RESPONSIBLE RESEARCH AND INNOVATION (RRI)?

RRI is an approach that anticipates and assesses potential implications and societal expectations with regard to research and innovation, with the aim to foster the design of inclusive and sustainable research and innovation. It implies that societal actors (researchers, citizens, policy makers, business, third sector organisations, etc.) work together during the whole process in order to better align both the research and innovation processes and their outcomes with the values, needs and expectations of the society.

WHO ARE THE CIVIL SOCIETY ORGANISATIONS (CSO) STAKEHOLDERS?

It aggregates **non-governmental organizations and institutions that manifest interests and will of citizens.**

Non-governmental, public health, consumer, environmental and labour associations, are all organizations that commonly follow governmental regulatory activities, industrial activities (common and innovative), and near to market product (and process) developments.

WHY IS NANO2ALL IMPORTANT FOR CIVIL SOCIETY ORGANISATIONS?

This cooperation will allow you to **express the views and positions of the groups you represent and bring new perspectives and dilemmas that will feed into nanotechnology research and innovation**, helping such processes better meet human needs and expectations.

Through NANO2ALL you will also **learn more about the current development of nanotechnologies and become aware of and understand the perceptions and concerns of other members** of the society regarding these technologies.

Step up and give voice to the needs, hopes and concerns of our society.
